**Sponsor-A-Saxon Program**

Dear Friends, Family and Community Partners,

I am writing to you on behalf of the award-winning Loara High School Band and Color Guard located in Anaheim, CA. This organization is the largest student organization on campus, with over 120 students that perform and compete in the Marching Band and Color Guard program, as well as other programs during the year such as Jazz Ensembles, Concert Bands, Winter Guard and Winter Drum Line. The program has developed a rich tradition of excellence over the past 60 years that we strive to continue.

Hard work and dedication of the students and parents is what makes the Loara program successful. The value of our program is found in the impact it has on both individual students and the community by providing:

- A place to belong, building school spirit and enhancing student interest in higher learning and greater personal achievement.
- An opportunity to learn discipline, personal responsibility, accountability and teamwork, and to be a part of something bigger than oneself.
- A way to contribute to school and community pride, promoting a positive representation for the local area.

Despite budget cut-backs and increasing costs, the Band and Color Guard have continued to compete locally and regionally. This year, the Loara program will perform in over 40 events including field shows, parades, festivals, exhibitions and seasonal concert performances. The Loara Band Boosters is the non-profit 501 (C) (3) booster organization that maintains and manages the financial obligations and fundraising efforts that provide all of the "extra's" needed to maintain our organization. In addition to fundraisers, each family pledges to contribute a fair share donation to assist in providing all that is needed.

The program is completely dependent on donations as well as our large fundraisers. To help individual families with their personal fair share, we are asking you to partner with us and "Sponsor-A-Saxon." Would you please consider contributing to the success of our program this year?

Sincerely,

Michelle Moreno

President - Loara Band Boosters
